Egg Freezing Package

The quality and quantity of eggs decline gradually with advancing age, resulting in a decreased probability of natural conception. Preserving eggs at a younger age can preserve a woman's reproductive capacity, allowing her more time for family planning and optimizing the chances of successful conception in the future.

HK\$ 88,000

Service Targets

1. Women interested in egg freezing after conducting fertility consultations
2. Women who want to preserve their fertility potential by storing their eggs when they are young.
3. For women who need to go through medical treatments that can potentially affect reproductive ability, e.g. chemotherapy, radiotherapy, and gynaecological surgery.

Terms and conditions

1. All treatment items of the package have to be within the same cycle.
2. Patients should pay for the extra charges for the extra straws if there are more than 6 eggs. (or more than 3 straws)
3. Surcharges apply for consultation or egg collection surgery on public holidays or non-office hours.
4. First instalment of the package fee, i.e. \$38,000, has to be paid on or before the cycle commenced. The rest of the payment, i.e. \$50,000, has to be paid before egg collection surgery.
5. All fees are not refundable in all circumstances, including self-withdrawal or cancellation of the treatment.
6. The package price is for reference only. HEAL Fertility reserves all right to revise the package content and the price. Please contact our clinic staff if there are any inquiries.
7. In case of disputes, HEAL Fertility reserves the right of the final decision.

Package includes

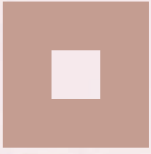

1. Doctor consultation, ultrasound, and blood tests for hormonal level during egg stimulation cycle (up to 4 times)
2. Basic stimulation medications during the cycle
3. Egg collection surgery
 - Surgeon fee (unlimited egg number)
 - Anaesthesia and anaesthesiologist fees
 - Laboratory fee
4. Laboratory fee for egg freezing
 - Up to 3 straws with 2 eggs per straw

Package excludes

1. Doctor consultation and fertility consultation and body check before the stimulation cycle
2. Egg storage fee
3. Other nutritional supplements and medicines

Add-ons

1. Egg freezing fee for extra straws: **HK\$2,000 per straw**
2. Egg storage fee: **HK\$1,000 per month / HK\$10,000 per year**
3. Upgrade to a **10-year storage duration** for **HK\$60,000** (starts with the first date of egg freezing)

Egg Freezing Package (Standard)

Female fertility is significantly influenced by egg quality, with age being a critical factor affecting this quality. With advancing age, the quantity and quality of a woman's eggs gradually decline, which impacts her reproductive capacity.

By preserving eggs at a younger age, women can maintain their fertility, providing greater flexibility in family planning and increasing the likelihood of successful conception in the future.

HK\$ 105,000

Service Targets

1. Women (single or married) who wish to delay childbearing for personal reasons and preserve their fertility potential by storing their eggs at an appropriate age for future use.
2. Women diagnosed with gynaecological conditions and need to go through medical treatments or surgery that can potentially affect reproductive ability, are advised to consider egg freezing prior to treatment to preserve their fertility.

Terms and conditions

1. All treatment items of the package have to be within the same cycle.
2. Patients should pay for the extra charges for the extra straws if there are more than 20 eggs (or more than 10 straws).
3. Surcharges apply for consultation or egg collection surgery on public holidays or non-office hours.
4. First instalment of the package fee, **HK\$50,000**, has to be paid on or before the cycle commenced. The rest of the payment, **HK\$55,000** has to be paid before egg collection surgery.
5. All fees are non-refundable after payment, including self-withdrawal or cancellation of treatment after the cycle has commenced or if the surgery is cancelled due to suboptimal ovarian response.
6. The package price is for reference only. HEAL Fertility reserves all right to revise the package content and the price. Please contact our clinic staff if there are any inquiries.
7. In case of disputes, HEAL Fertility reserves the right of the final decision.

Package includes

Pre-Cycle Consultation and Monitoring

1. Pre-cycle fertility consultation, physician examination, ultrasound and blood tests prior egg stimulation cycle.
2. Doctor consultation, ultrasound, and blood tests for hormonal level during egg stimulation cycle (up to 5 times).
3. Basic stimulation medications during the cycle as prescribed by the doctor (including long-acting injections; exclude other nutritional supplements and medicines).

Egg Collection and Freezing

4. Egg collection surgery:
 - Surgeon fee (unlimited egg number)
 - Anaesthesia and anaesthesiologist fees
 - Operating room fee
5. Egg freezing
 - Laboratory fee (Includes 10 straws, each straw can store 2 eggs)
 - Egg storage duration (6 months)

Add-ons

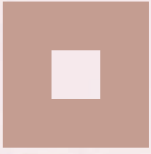

Egg Storage Fee

- **HK\$3,000** / 3 months
- **HK\$10,000** / year

A 10% discount is available for extending egg storage after the initial 6 months period.

Egg Freezing Fee for Extra Straws

- **HK\$1,500** / straw
