

人工授精流程 IUI Treatment Process

面見醫生進行初步諮詢

1

Initial consultation with your doctor

評估及IUI前檢查

2

Assessment and pre-IUI investigations

治療前輔導並簽署同意書

3

Pre-treatment counselling and signing the consent forms

進入 IUI 週期 | Enter IUI cycle

月經週期第一天,致電到診所預約

4

Please call the clinic to make an appointment on the first day of the menstruation

第二 / 三天回診所,
面見醫生,處方藥物刺激卵巢

5

On the 2nd/3rd day of menstruation, come back to clinic for consultation with the doctor and medication prescription to stimulate the ovaries

覆診及見醫生監測卵泡大小及抽血三至五次

6

Follow up 3-5 times to monitor follicle growth

卵泡成熟時,晚上打破卵針

7

Trigger injection in evening when the follicles are mature

大約36小時後,進行人工授精
丈夫同日提交精液樣本,實驗室作精子處理

8

IUI procedure about 36 hours later
Husband provides semen sample on the same day for sperm washing
